

DEVELOPMENT

CROSSWORD PUZZLE

Across:

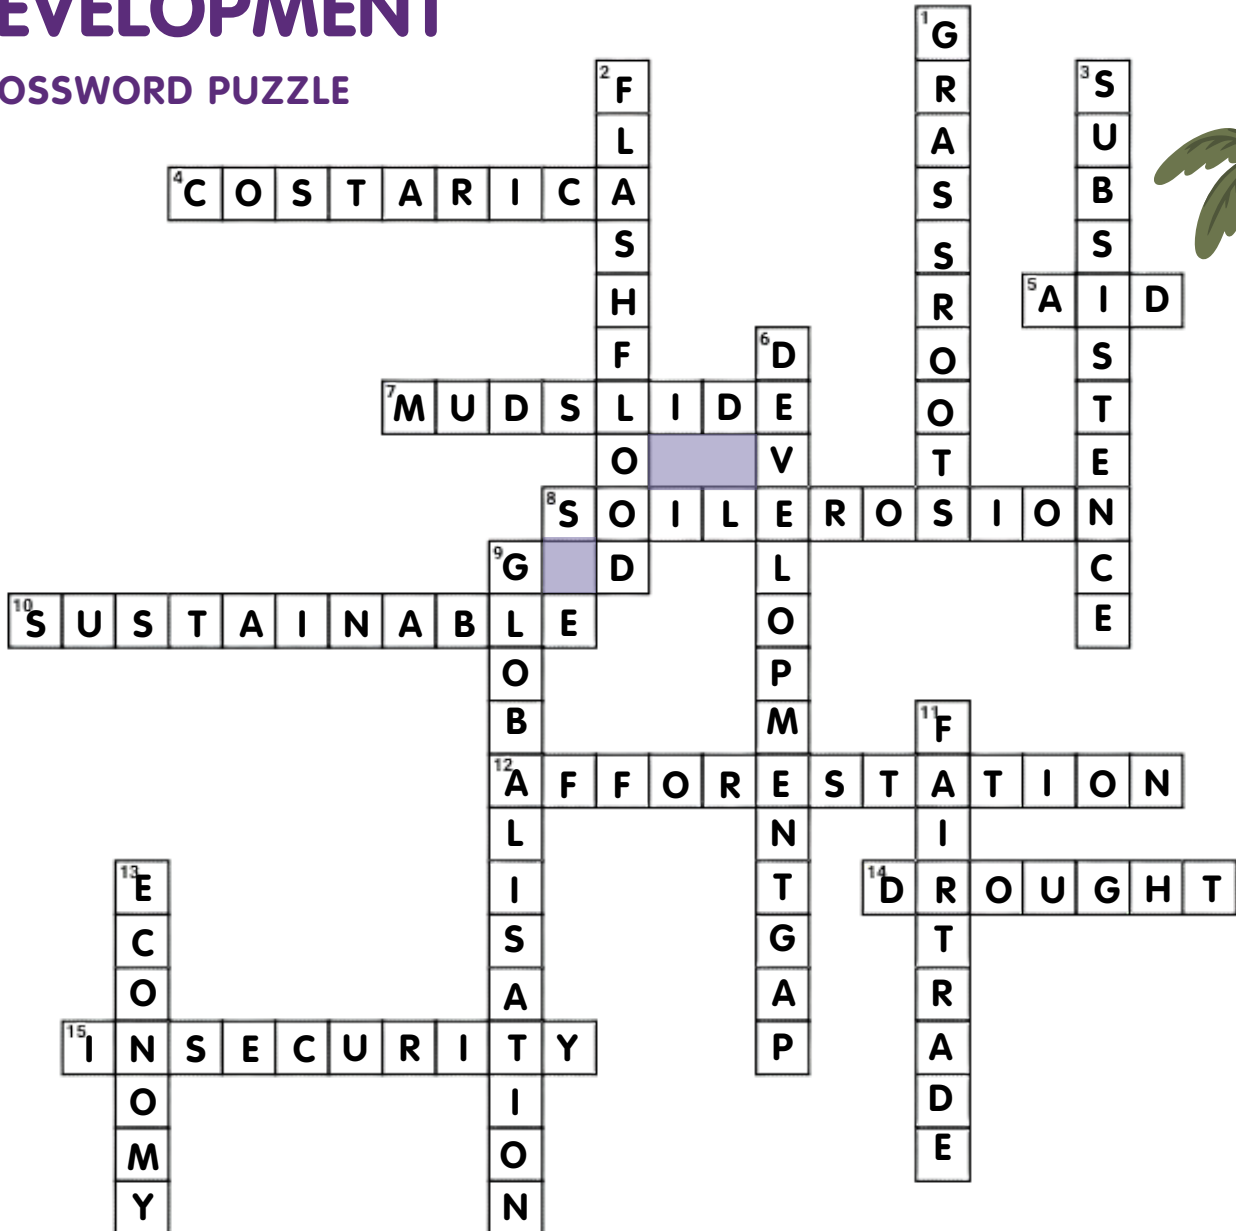

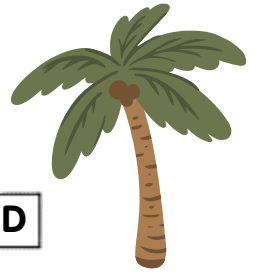

- [4] A country that is home to 5% of the world's biodiversity. (2 words)
- [5] Help given from one country to another, in the form of money, tools, or education.
- [7] When heavy rain causes mass movement of dirt, often downhill.
- [8] When mud and dirt is washed away after deforestation or heavy rain. (2 words)
- [10] An action that can continue indefinitely without using up too many resources or harming the environment.
- [12] Planting trees, especially in areas that have previously been cleared.
- [14] A period of dry weather during which water can become scarce.
- [15] When people lack reliable access to resources such as food or water.

Down:

- [1] Small-scale development initiatives, often led by local people and communities.
- [2] Sudden flooding caused by heavy rain.
- [3] The term for people who grow only enough crops to feed themselves and their families.
- [6] The inequality between the most and least developed countries. (2 words)
- [9] The process of the world becoming increasingly connected and interdependent, sharing trade and culture.
- [11] A trade arrangement that aims to pay growers a fair price for what they produce.
- [13] A country's money, goods, and services.
