

On track for Ofsted?

Educake helps you identify knowledge gaps, target support and demonstrate impact with confidence.

“ This is where assessment genuinely changes teaching and outcomes. ”

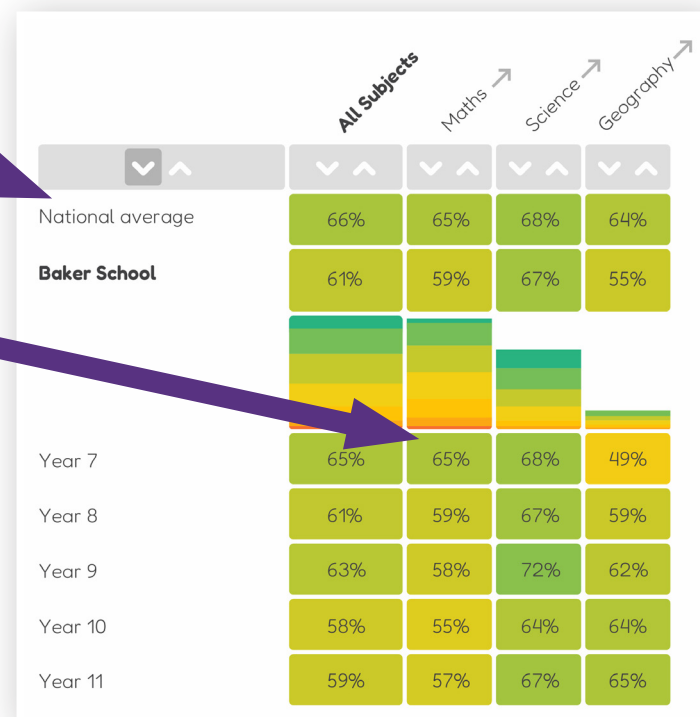

Dr Richard Metcalfe, School Improvement Partner, Unity Schools Trust

Assess student performance in a few easy steps

Compare results against national averages.

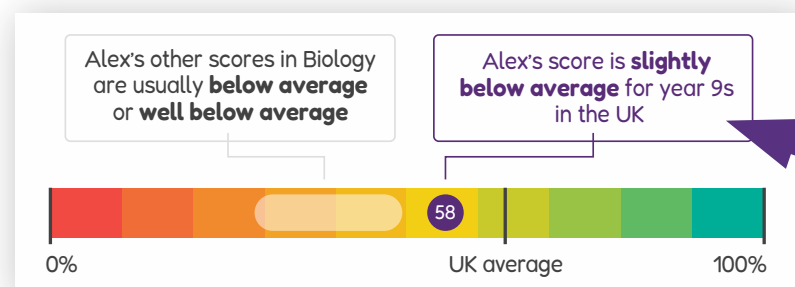

See how interventions have led to school progress. Here, year 7 benefitted from more teacher CPD in maths.

Average scores are only part of the picture. The coloured graphs highlight that some students are struggling in 11X2/Eng.

Performance by Class

	Score spread	Average score	Questions answered	Students
11X1/Eng		57	4,376	29
11X2/Eng		55	4,056	25
11X3/Eng		45	417	10

Student performance is put into context – useful for sharing with parents.

Improve GCSE outcomes

Manor Academy, Nottinghamshire

"We looked at the 2024 GCSE exam results, and the students who had done their Educake homework over that time were the students who got the results that they were hoping for. The correlation is very tight between Educake homework, learning, and also the results."

Helen Corsie, Assistant Headteacher

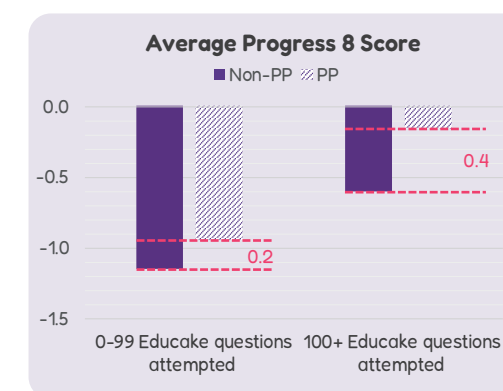

Cams Hill School, Hampshire

"In the last year our P8 went up by 0.3 – Educake was part of that philosophy."

Ian Hudson, Headteacher

Close the attainment gap

Valley Park School, Kent

"At this school, pupil premium students achieved higher Progress 8 scores on average than their peers. The difference was even greater if they had engaged with Educake."

Greg Campbell, Research Project December 2024

St Aidan's CofE High School, North Yorkshire

"We have found it really useful, and it has clearly helped out students and has had an impact on the GCSE Geography results we achieved this year, particularly with different groups of students i.e. boys/SEND/disadvantaged."

Anna Lennox, Director of Learning (Humanities)

How can Educake improve student outcomes in your school?

Book a demo at educake.co.uk

Is your formative assessment aligned for whole-school improvement?

Spot gaps

Educake highlights the key gaps in knowledge and skills across your classes.

Supporting each step of the improvement cycle

Reinforce and track progress

Strengthen understanding over time through targeted practice and ongoing checks.

Diagnose and take action

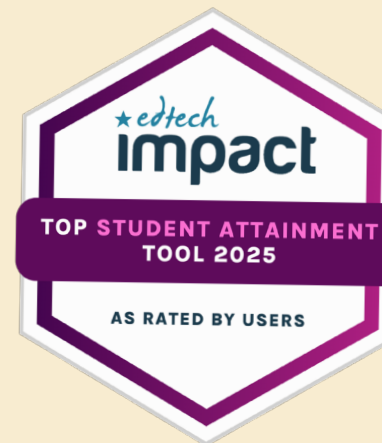

Use clear insight to respond straight away – reteach, revisit or adapt with confidence.

“We can see the benefit from their mock results. Every time we can see a gap, we’re setting them more questions on that topic, and it’s massively helped them.”

Hannah, Head of Geography, The Manor Academy

“Educake simply works – and it works well. It saves time, strengthens learning, and makes high-quality practice easy to deliver.”

Shelley, Head of Department, Coombe Dean School

Retrieval practice is one of the most effective, research-backed strategies for improving long-term learning.

Regular low-stakes quizzing helps students strengthen memory, identify learning gaps and retain knowledge for longer.

Unbeatable coverage for science, English, maths, geography, history, computer science, business, MFL and PE

Make assessment more consistent across your departments

Give every student confidence in their learning

Support teacher wellbeing and retention

Make it easier to recognise effort and celebrate achievement – teachers can see how students are engaging.

Topic	Qs done	%	
GCSE Spanish	4910	52	▶
^ Writing	2928	68	▶
^ Picture Cards	1667	56	▶
My Personal World	167	29	▶
Lifestyle and Wellbeing	213	70	▶
My Neighbourhood	323	44	▶

Layla's performance in Maths on self set questions

	Average score	Questions answered
Factors	57	684
Expanding binomials	67	593
Circle graphs	45	36

Build revision habits that last through regular quizzing, which students can use independently.

Help every student feel capable, whatever their starting point. Educake is a low-stakes space where progress matters more than perfection.

Question 5 of 10

What type of cell division results in cells that are genetically identical?

The right answer is "mitosis"

When cells undergo mitosis, the new cells are identical to each other and to the parent cell from which they came.

Includes a range of features to support learners with additional needs in mainstream schools.

- ✓ More time and headspace for teaching, with less day-to-day workload pressure
- ✓ Clear insight into understanding, making it easier to plan lessons and target support
- ✓ Built to support expertise, not replace it – teachers choose what to set, when and how

“Our workload has gone down but our results have gone up. I cannot recommend it more simply than that.”

David, Head of Department, Davenant Foundation School

“It has reduced workload around homework and cover massively, and allows students to push themselves, developing independent learners.”

Adam, Curriculum Lead, St Anselm's Catholic School

Data only matters if it improves teaching

“Across Unity Schools Trust, the real strength of Educake has been how it supports consistency and collective collaborative improvement, not just individual classroom practice.”

“We use Educake not just to assess learning, but to recognise effort, build confidence, and raise aspiration.”

Dr Richard Metcalfe, School Improvement Partner, Unity Schools Trust
