

Student voices: how Educake supports independent success

Students consistently highlighted three major benefits:

1. Identifying weak spots quickly

“

It helps me identify areas I need to study more. I can go over lots of different areas quickly.

”

–Fraser

2. Making revision easy and immediate

“

It's online and portable so I can do it anywhere.

”

–Henry

3. Building independent study habits

Students described Educake as a tool that helps them take ownership of their learning, not just complete homework.

Their advice to new students:

- “Do a broad range of topics to keep knowledge fresh” –Cecily
- “Use it consistently throughout the course.” –Henry
- “Mix Educake with exam questions for both breadth and depth.” –Fraser
- “Do as many questions as possible to strengthen recall.” –Evan

Conclusion

Through clear routines, pre planned quizzes, and visible celebration of progress, the science department has created a culture where Educake is used consistently and purposefully. Students feel more confident, more organised, and more aware of their strengths and weaknesses. This is exactly the kind of independence science demands.
